Animated graphic “electric current” moves across screen.... Continues across image of Senator Reid, working.	When it comes to power...	
“Electric current” animates across each image throughout the ad.	Senator Harry Reid delivers.	
Cut to image of NV solar array or wind farm. Super: Senator Reid: Creating Clean Energy Jobs	And when it comes to creating clean energy jobs – no one’s done more than Harry Reid.	
Cut to image of Nevada landscape. Draw on high tech graphic of solar array and wind turbine Super: Senator Reid: Investing in Clean Energy SOURCE: HR1, Senate Vote 64, 2/13/09	Expanding solar, geothermal and wind energy production...	<p>Reid backed tax credits for solar, geothermal and wind energy. Reid voted for H.R. 1, the American Recovery and Reinvestment Act, which extended the production tax credit for wind and geothermal power, and also extended the 30% investment tax credit for commercial and residential solar energy. [HR1, Senate Vote 64, 2/13/09]</p> <p>Reid backed Nevada companies by supporting program for renewable energy generation. Reid voted for the Treasury Department’s 1603 program for renewable energy generation, which has provided over \$430 million for over 280 renewable energy projects in Nevada. [HR1, Senate Vote 64, 2/13/09; Treasury Department, Overview and Status Update of the 1603 Program, 3/21/13].</p> <p>Reid helped pass the Clean Energy Manufacturing Tax Credit. Reid voted for the 48C program, which provided millions of dollars to Nevada manufacturers to help create clean energy jobs within the state. The tax credit saved or created an estimated 17,000 jobs nationally. [HR1, Senate Vote 64, 2/13/09; Department of Energy State Memo, 6/1/10; White House Fact Sheet, 1/8/10].</p>
Cut to image of solar workers. Super: Senator Reid: Clean Energy Jobs SOURCE: H.R. 6049, Senate Vote 150, 6/17/08	Working to create thousands of good jobs here in Nevada...	<p>Reid voted to extend solar investment tax credit, which will create an estimated 9,000 Nevada jobs. Reid voted for an 8-year extension of the 30-percent federal investment tax credit for residential and commercial solar installations. According to the Solar Energy Industries Association, an independent study conducted by Navigant</p>

		<p>Consulting found that an 8-year extension of the solar investment tax credit in 2008 would create 9,000 jobs in Nevada by 2016. [H.R. 6049, Senate Vote 150, 6/17/08; H.R. 6049, Senate Vote 205, 9/23/08; H.R. 1424, Senate Vote 213, 10/1/08; Solar Energy Industries Association press release, 9/15/08]</p>
<p>Cut to Reid with solar workers.</p> <p>SOURCE: S.4; S.7; “Playing to Win in Clean Energy,” 2012</p>	<p>...And to make us America’s clean energy leader.</p>	<p>Reid sponsored bill urging Congress to “bolster investment in clean energy jobs and industries.” Reid is the lead sponsor of S.4, the Rebuild America Act, which states that “It is the sense of the Senate that Congress should... invest in critical infrastructure, such as a smarter national energy grid, to reduce energy waste and bolster investment in clean energy jobs and industries; [and] invest in clean energy technologies that help free the United States from its dependence on oil, especially foreign oil.” [S.4]</p> <p>Reid sponsored bill urging Congress to “put the United States at the forefront of the global clean energy market.” Reid is the lead sponsor of S.7, the Extreme Weather Prevention and Resilience Act, which states that “It is the sense of the Senate that Congress should... promote investment in clean energy infrastructure, energy efficiency, and other measures to address dangerous air, land, and water pollution, promote development of clean energy technologies that reduce demand for oil, contribute to economic growth and job creation, and put the United States at the forefront of the global clean energy market; and ensure that the Federal Government is a leader in reducing pollution, promoting the use of clean energy sources, and improving energy efficiency.” [S.7]</p> <p>In 2012, Reid issued a detailed report on clean energy in Nevada.
