Mike Lamonea puts billionaires first, and **YOU LAST.**

Your expenses go up, your benefits get cut, and billionaires get all the breaks.

Higher energy and health care bills.

Lamonea will fall in line with the Trump agenda of raising energy prices and health care costs, and hurting working families – all so billionaires can have more tax breaks.¹

De-funded public schools.

Lamonea supports a radical plan to take tax dollars out of our public schools and use them to pay tuitions at the kind of private and for-profit schools where billionaires send their kids.²

Cuts to veterans' health care.

Lamonea has been groomed for office by politicians and groups supporting massive layoffs at the VA, making it harder for veterans to get the benefits they earned – again, all so billionaires can have more tax breaks.³
